

Facilities/H&S/Environmental Decision Makers Postal, Telephone and Email Contacts 17,000

Description/Profile

The GRS file is a specialist telephone verified database targeting facilities, health & Safety, and environmental decision makers across the UK.

This source only focuses on medium to large sized organisations across the private sector; with the exception of universities.

All records have full postal information, with the vast majority also having telephone and e-mail addresses.

Accuracy

Every effort is made to ensure all the information gathered is accurately collected through telephone research. Verification is carried out at switchboard and departmental level. All records are updated within a 6-12 month cycle to ensure maximum on-going accuracy.
