

IMG Business Index UK

Active trading sites 2,000,000
Opted in E-Mails 800,000

Description/Profile

This comprehensive database is among the largest active trading files in the UK, with just over 2,000,000 sites across both the private and public sectors. Unlike most other compiled sources, this database only provides data to the companies that are actively trading; therefore you will not receive shelf/dormant companies when prospecting.

The vast majority of contacts available from this source are SDM (senior decision makers) however there are additional contacts available such as: sales, marketing, finance, facilities, purchasing, health & safety etc.

This file offers 97% accuracy guarantee on mail and tele data, and at least 90% deliverability guarantee on emails (all emails are fully opted in at point of verification).

**This file is selectable by SIC and SIZE and much more.
For further information or counts please enquire.**
