

IMG CSCO Database
Postal, Telephone and Email records

Description/Profile

Intermedia Global is delighted to bring to market a database comprising of all properties within the latest CSCO areas – the bottom 25% according to the IMD rankings. Data can be split by the bottom 15% and 25% geographical areas across the UK.

Properties within these areas automatically qualify for various energy-saving measures, so are highly in demand by installers.

Selections can be made on homeownership, one contact per household, type and age of property and listed building.

Counts

- Postal Addresses: 2.9m records
- Telephone Numbers: 1.6m records
- Email Addresses: 1.6m records
